JPO Requirements Validation Process

- **Two types of planning**
 - **Deliberate Planning**
 - **Used to write/rewrite OPLANs/CONPLANs**
 - **Used to determine PWRR**
 - **Crisis Action Planning**
 - **Used by Operational Planning Teams during contingencies**

JPO Deliberate Planning Requirements Validation Process

- **OPLAN is reviewed to make sure it is still up to date**
- **To determine PWRR:**
 - **Components pull TPFDD for OPLAN and run requirements calculations based on the published TPFDD**
 - **Requirements submitted by components to JPO for consolidation and validation**

JPO Crisis Action Planning

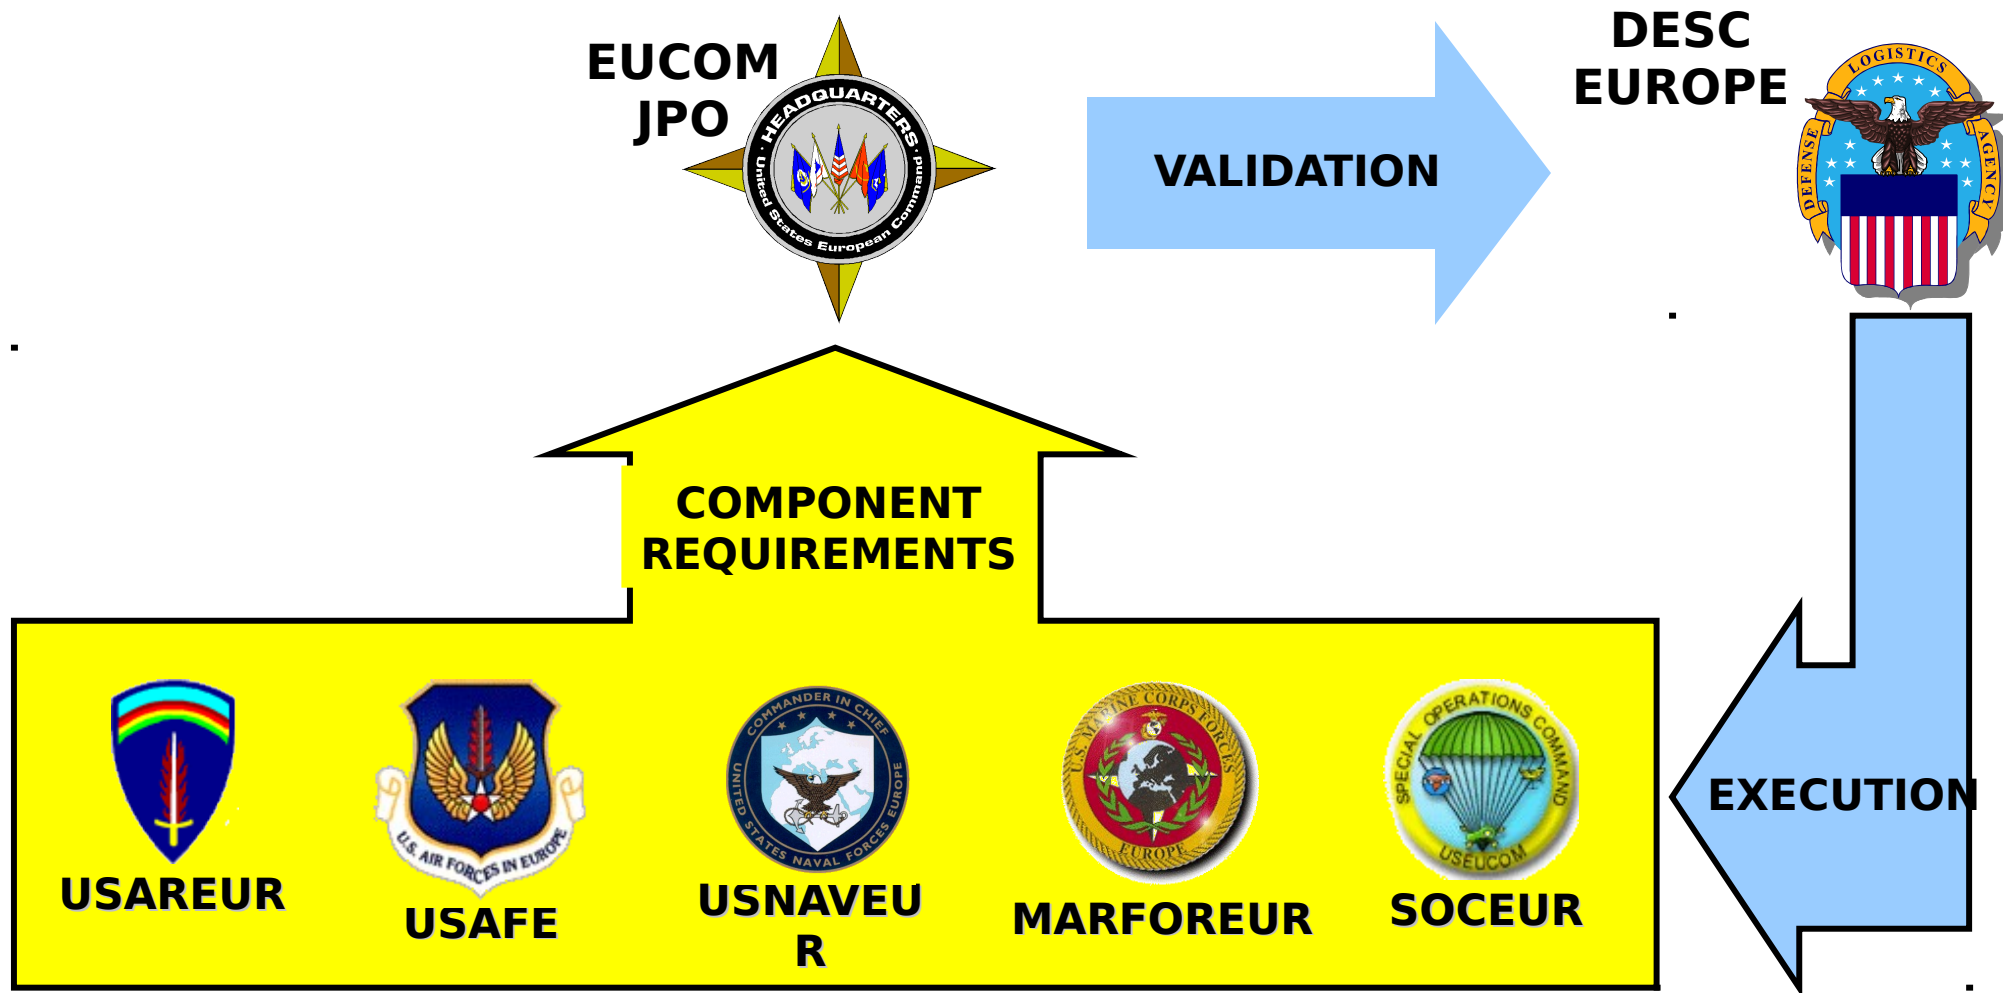

Validation Process

- **JPO receives contingency requirement from component and validates using:**
 - **Standard Consumption Rates**
 - **“Common Sense”**
 - **Historical Data**
- **Tough part here is TRANSCOM requirement**
